

TS	tetanizing sine wave
INT	interferential wave
+/- gal	positive/negative galvanic
US	ultrasound
PIT	progressive intermit-traction
PST	progressive static traction
ACU	neuroprobe
FDT-MA	flexion/distraction therapy (Cox) man/auto
MIST	spinalator
DOI	date of injury
DOE	date of exam
HPI	Hx present illness
pp	pinprick
2pd	2 point descrimination
WM	white male
PMD	private medical doctor
'	hours
"	minutes
PAL	posterior axillary line
AAL	anterior axillary line
Δ	change
p	pain
ORIF	operative reduction, internal fixation
LRM	limited range of motion
LOM	limitation of motion
FROM	full range of motion
LLD	leg length discrepancy
IDK	internal derangement of knee
AROM	active range of motion
PROM	passive range of motion
HP	hot packs
MWD	microwave diathermy
SWD	short wave
FIX	fixation
CVA	cerebrovascular accident
cva	costovertebral angle
